Clear Items

META TAGS & PAGE TITLES (6 PTS)

4/6

Title tag present and ≤ 60 characters

+2 Pts

Meta description present and ≤ 160 characters

+2 Pts

Provide a unique meta description (under 160 chars) for each page to improve click-through rates and clearly summarize page content.

[KB-DIAGNOSTIC](#)

Open Graph / Twitter meta tags present

+2 Pts

HEADINGS & STRUCTURE (5 PTS)

5/5

Page has one <h1> and meaningful <h2>/<h3> structure

+3 Pts

No heading tag misuse (e.g., multiple h1s)

+2 Pts

INDEXING & CRAWLABILITY (5 PTS)

5/5

robots.txt file present and valid

+1 Pts

**sitemap.xml accessible****+1 Pts****noindex not set on main pages****+1 Pts****Canonical tags used properly****+2 Pts****SCHEMA MARKUP** (4 PTS)**4/4****JSON-LD or Microdata schema present (Article, Organization, etc.)****+4 Pts****INTERNAL LINKING** (5 PTS)**3/5****Interlinking between articles/pages exists****+3 Pts****No broken internal links (simulated)****+2 Pts**

Regularly check for and fix broken internal links to improve user experience and crawlability.
Use tools like Screaming Frog.

MOBILE SEO & ACCESSIBILITY (5 PTS)**3/5****Mobile-friendly viewport configured****+1 Pts****ALT text on images (simulated check on prominent images)****+2 Pts**

Provide descriptive alt text for all important images to improve accessibility for visually impaired users and provide context to search engines.

**Semantic HTML tags (header, nav, footer) used****+2 Pts**

CONTENT QUALITY & COMPLIANCE

6/18 ITEMS • 30 WEIGHT

9/30

30% INTENSITY

Pre-Verify All

Clear Items

ARTICLE COUNT & DEPTH (8 PTS)

0/8

Minimum 20 indexed articles (simulated)

+2 Pts

Aim for at least 20-30 high-quality, indexed articles or pages to show site substance. Quality over quantity is key.

Minimum 600 words per article (average, simulated)

+2 Pts

Ensure articles are substantial and provide depth. For informational content, 600+ words is a good guideline, but value matters most.

Original content (simulated plagiarism/AI check >80% original)

+2 Pts

Content must be original and unique. Avoid plagiarism and ensure any AI-generated content is heavily edited, fact-checked, and provides unique value.

Clear, useful language (simulated Flesch score > 60)

+2 Pts

Write clearly and concisely for your target audience. Aim for a Flesch Reading Ease score of 60 or higher for general audiences.

E-A-T SIGNALS (7 PTS)

2/7

Author info or byline present

+2 Pts

Site mentions credentials or experience

+1 Pts

Showcase any relevant credentials, expertise, awards, or experience on your 'About Us' page or author bios to build trust.

**External backlinks to trusted sources (simulated)****+2 Pts**

Link out to authoritative and relevant external sources where appropriate to support your content and demonstrate research.

**Outbound links open in new tab with rel attributes (e.g., noopener)****+2 Pts**

Ensure external links open in a new tab (target="_blank") and use rel="noopener noreferrer" for security.

LEGAL & TRUST PAGES (8 PTS)**7/8****Privacy Policy page present & comprehensive****+2 Pts****Terms & Conditions page present & clear****+2 Pts****Disclaimer page present (if applicable) & visible****+1 Pts**

Provide a Disclaimer page, especially if offering advice (financial, health, legal, etc.) or using affiliate links. Make it easy to find.

**Contact Us page with functional, real email/form****+1 Pts****About Us page with transparent person/entity details****+1 Pts****Cookie Consent mechanism functional (for EU/GDPR traffic)****+1 Pts****ADSENSE CONTENT POLICY COMPLIANCE** (7 PTS)**0/7****No adult/pirated/violent/dangerous content****+3 Pts**

Strictly adhere to AdSense content policies. Remove any content related to adult themes, pirated software/media, violence, hate speech, illegal drugs, weapons, etc.

KB-DIAGNOSTIC [↗](#)

**No excessive profanity or hate speech****+1 Pts**

Maintain a professional tone and avoid excessive profanity, offensive language, or hate speech.

**No misleading health or financial claims****+2 Pts**

Avoid making unsubstantiated or misleading claims, especially in health and finance niches (YMYL). Content should be accurate and trustworthy.

**No scraped or spun content****+1 Pts**

All content must be original and provide unique value. Scraped, aggregated, or heavily spun content will lead to rejection.

**TECHNICAL PERFORMANCE**

2/9 ITEMS • 20 WEIGHT

5/20**25% INTENSITY****Pre-Verify All****Clear Items****PAGE SPEED** (5 PTS)**0/5****Google PSI score > 70 desktop (simulated)****+2 Pts**

Aim for a Google PageSpeed Insights score above 70 for desktop. Optimize images, leverage browser caching, and minimize render-blocking resources.

[KB-DIAGNOSTIC](#) **Google PSI score > 50 mobile (simulated)****+3 Pts**

Mobile speed is critical. Aim for a Google PageSpeed Insights score above 50 for mobile. Prioritize above-the-fold content loading.

CORE WEB VITALS (5 PTS)**0/5****LCP < 2.5s (simulated)****+2 Pts**

Largest Contentful Paint should be under 2.5 seconds. Optimize server response times and resource load times.

[KB-DIAGNOSTIC](#) 

CLS < 0.1 (simulated)

+2 Pts

Cumulative Layout Shift should be under 0.1. Always include size attributes on images and videos, and reserve space for ads.

[KB-DIAGNOSTIC](#) 

FID < 100ms / INP good (simulated)

+1 Pts

First Input Delay should be under 100ms. Break up long JavaScript tasks and optimize event handlers.

[KB-DIAGNOSTIC](#) 

SECURE SITE (HTTPS) (2 PTS)

2/2

Valid SSL cert, no mixed content

+2 Pts

RESPONSIVE LAYOUT & VIEWPORT (3 PTS)

3/3

Uses media queries and scales on mobile

+3 Pts

404/BROKEN LINKS & ERRORS (5 PTS)

0/5

No 404 errors on main pages

+3 Pts

Regularly scan for and fix 404 errors. Set up proper 301 redirects for deleted or moved pages.

No broken internal or external links (simulated)

+2 Pts

Regularly scan for and fix broken internal and external links. Broken links frustrate users and can harm SEO.

USER EXPERIENCE & ENGAGEMENT SIGNALS

1/20

1/12 ITEMS • 20 WEIGHT

5%
INTENSITY

Pre-Verify All

Clear Items

UI/UX SIGNALS (5 PTS)

0/5

**Clean, professional design with good readability****+2 Pts**

Maintain a clean, professional design that instills trust in visitors. Use readable fonts and proper contrast.

**No excessive ads/pop-ups, intrusive interstitials avoided****+2 Pts**

Avoid cluttering your site with excessive ads, intrusive pop-ups, or interstitials that block content.

**Readable fonts and adequate text sizes****+1 Pts**

Use readable fonts with appropriate sizing (minimum 16px for body text) for comfortable reading.

NAVIGATION AND SITEMAP (3 PTS)

1/3

**Navigation bar/menu present on all pages****+1 Pts****Breadcrumbs or footer nav exists****+1 Pts**

Implement breadcrumbs for easier navigation on content-rich sites or ensure a comprehensive footer navigation.

**HTML sitemap or clear sidebar links****+1 Pts**

Provide an HTML sitemap or clear sidebar navigation for users to easily find content.

ENGAGEMENT & ANALYTICS (4 PTS)

0/4

**Google Analytics or similar script installed (simulated)****+2 Pts**

Install Google Analytics or a similar analytics platform to track and understand your traffic patterns.

☐**Comments or user interaction visible (optional, but good)****+1 Pts**

Encourage user engagement through comments sections or forums if appropriate for your site's niche and content.

☐**Bounce rate indicators (simulated, e.g., <70%)****+1 Pts**

Monitor bounce rate; high bounce rates might indicate poor content relevance, UX issues, or slow loading times.

BACKLINK & TRAFFIC SIGNALS (8 PTS)**0/8**☐**Some organic traffic (simulated > 0)****+3 Pts**

Your site should have organic traffic from search engines. Focus on SEO and content marketing to build traffic.

☐**Backlink count > 10 (simulated, even small ones)****+2 Pts**

Build quality backlinks from other websites to improve your domain authority and trustworthiness.

☐**At least 2 pages indexed in Google (simulated)****+3 Pts**

Ensure your key pages are indexed by Google. Check using 'site:yourdomain.com' search in Google and monitor Google Search Console.
